

Mr. Chisholm who was 39 years old started railroad work at the bottom of the ladder on the Baltimore & Ohio railroad.

Funeral directors of Connells-ville have received notification from the state board of health that all funeral services and all interments are to be private during the continuation of the influenza epidemic.

The Grim Reaper

WILLIAM WORK
William Work, who died yesterday at his home in Waynesburg following a brief illness of pneumonia, was a member of an old family, descended from English ancestors, who were among the earliest settlers of south-western Pennsylvania. He was the eldest son of the late William and Harriet Hankins Work, and was born December 31, 1878, in the old stone residence of the family, in Dunbar township, in which his grandmother, Sarah, wife of John Work, was born. He attended the White school, near his home, and later entered California State Normal, attending two terms. He then completed a course in pharmacy at the Western Pennsylvania University, after which he entered business and was engaged in a drug store at Beaver Falls for six years. Later he located at Jeannette and in 1907 came to Connellsville and was a druggist at Barclay's pharmacy, now the L. B. Collins drug store. In 1909, in partnership with V. J. Clark, he bought out the electric and auto business of Porter and Burrows and established the new firm of Clark and Work. They built a large garage and opened a repair shop in East Apple street, under the name of the Connellsville Garage. Later Mr. Work sold out his business to Mr. Clark and in 1914 moved to Waynesburg, where he was engaged in the automobile business. Mr. Work was a Mason, a member of the Baptist church and took an active part in church work. He was widely and favorably known in this community. October 12th, 1932 he was married to Miss Alberta McDonald of Beaver Falls. In addition to his widow he is survived by two brothers, John H. Work of Blair, Va., formerly of Connellsville, and Charles L. Work of Connellsville. Mr. Work had volunteered for overseas work in the Y. M. C. A. and received his notice to report on the day he was taken ill. The deceased was a nephew of Judge T. C. Work of Uniontown.

MRS. WAYNE C. CROWE
Following a brief illness of pneumonia Mrs. Ruth Jane Stillwagon Crowe, 25 years old, wife of Wayne C. Crowe of Pittsburg, died yesterday afternoon at her home in Murray avenue. Mrs. Crowe returned home a week ago yesterday from a visit with relatives here and on the following Sunday was taken ill. The body will arrive here tomorrow from Pittsburg and will be removed by funeral director Charles C. Mitchell to the residence of a brother of the deceased, W. P. Stillwagon in East Crawford avenue. The deceased was born in Connellsville, a daughter of the late W. P. and Mary Gregg Stillwagon. She attended the local schools and later was graduated from Maryland college. Mrs. Crowe spent virtually all her life in Connellsville and had a host of friends here. She was a member of the Christian church of this city. December 15th last she was married to Wayne C. Crowe of Pittsburg, residing in that city since her marriage. In addition to her husband she is survived by the following brothers and sisters: Mrs. W. E. Rice, Mrs. T. L. Krush, Larmer, W. P. and Rockwell Stillwagon, all of Connellsville; Mrs. Harry Griffin, of McKeesport, and Mrs. T. J. Maloney, of Pittsburg. Notice of funeral later.

FREDERICK SHEARER
The funeral of Frederick Shearer will be held tomorrow morning at 10:30 o'clock from the residence of his daughter, Mrs. Harriet Miller, in Eighth street, Greenwood, with Rev. G. L. Richardson of the First Methodist Episcopal church officiating. Interment will be in Hill Grove cemetery. Mr. Shearer was born in Springfield township July 10, 1841, a son of the late Daniel and Emily Shearer. He was reared in that township and was a carpenter by trade. At the outbreak of the Civil War he enlisted in the 142nd Regiment. He participated in many important battles, was twice wounded and was taken a prisoner. Of late years he lived retired. Mr. Shearer was married to Miss Mary Sherbondy of Mill Run, her death occurring about 12 years ago. He had been a resident of Greenwood for about 15 years, moving there from Dawson. In addition to the daughter, Mrs. Miller, with whom he made his home, he is survived by one son, John Shearer, and three brothers, Joseph and William Shearer of Mill Run and Stanton Shearer, located in the west.

MRS. ISAAC SHAW
Mrs. Charles T. Giles received word Wednesday of the death at the home of her parents in Massachusetts of her sister-in-law, the wife of Lieut. Isaac Shaw. Mrs. Shaw had been seized with an attack of Spanish influenza which rapidly developed into pneumonia. Her husband is with the American Expeditionary Forces in France. At the outbreak of the war with Germany Lieutenant Shaw was stationed in Honolulu, Mrs. Shaw being with him. When the training camps opened Lieutenant Shaw was

transferred to Augusta, Ga. When he went overseas Mrs. Shaw returned to the home of her parents where she had resided until her death.

MRS. R. B. KING
Mrs. R. B. King, formerly Miss Ruth Conner of Connellsville, died Wednesday at her home in Savannah, Ga. The deceased is survived by her husband, two daughters, an infant son two weeks old, her mother, Mrs. Ruth Conner of Connellsville, who was at her daughter's bed side when death came and the following brothers and sisters: Charles E. Conner of Camp Funston Kan.; C. W. and B. R. Conner of Connellsville, who have gone to Savannah to attend the funeral; Mrs. Dorothy Gresh of Waynesburg, Ga.; and Mrs. C. E. Edwards of Mansfield, O.

MRS. MARY E. CLASPER
Funeral services for Mrs. Mary E. Clasper will be held tonight from the residence of her son, W. R. Clasper, in East Green street, followed by private interment tomorrow at McKeesport. For the past 18 years she had made her home with her son, W. R. Clasper. Her husband died a number of years ago. The deceased was a member of the First Methodist Episcopal church of McKeesport and was held in high esteem by her wide circle of friends. She is survived by two sons, W. R. Clasper, and Walter Clasper of McKeesport.

MRS. LUCINDA E. THORPE
Mrs. Lucinda Ellen Thorpe, 35 years old, died yesterday afternoon at her home in South Connellsville, following an illness of pneumonia, superinduced by Spanish influenza. The deceased was born in West Virginia, a daughter of Joseph and Rachel Glass Muser. Funeral tomorrow, with interment in St. Joseph's cemetery.

DR. FRANK H. WEIDEMANN
The body of Dr. Frank H. Weidemann was shipped to Philadelphia for interment this morning by funeral director Charles C. Mitchell. W. L. Wright, W. L. Leche, P. T. Kammerer, John M. Young, Dr. G. H. Edmunds and Dr. Buttermore served as pallbearers. Dr. C. A. Weidemann, father of the deceased, arrived from his home in Philadelphia and returned with the funeral party.

MISS ELIZABETH DAUGHTERY
Miss Elizabeth Daughtery, daughter of Mr. and Mrs. Joseph L. Daughtery of Meyersdale, died Tuesday at her home at Meyersdale.

MRS. JESSIE E. FOLTZ SMITH
Following an illness of Spanish influenza, Mrs. Jessie Foltz Smith, 28 years old, of East Crawford avenue, died yesterday afternoon at the emergency hospital. The deceased was a daughter of D. C. Foltz of Dunbar and Mrs. Mary B. Foltz, deceased, and was widely known in Dunbar, where she spent virtually all her life. She married Harry Smith, who died six years ago. Mrs. Foltz was an accomplished musician, and for some time taught music at Dunbar. She was a member of the Baptist church at Dunbar. In addition to a little daughter, Jessie Irene Smith, who is also ill of influenza at the emergency hospital, Mrs. Smith is survived by her father, D. C. Foltz, her step-mother, Mrs. Lydia E. Foltz, the following brothers and sisters: J. R. Foltz and Mrs. Frank McFarland of Dunbar; Mrs. R. M. Carroll of Uniontown; Wilson and Paul Foltz in France; David E. Foltz of Vanderbilt; Jacob K. Foltz, in military training in Philadelphia; Harry C. Foltz, stationed at Camp Lafayette, Easton, Pa.; Daniel C. Foltz stationed at Fort Myers, Mrs. Margaret Holzing of Johnetta, Pa., one half-sister, Virginia Foltz, at home, and two step-sisters, Mrs. H. O. Markle of Connellsville, and Mrs. Kate Williams of Dunbar. Funeral services will be held Sunday afternoon at 2 o'clock from the father's residence, with Rev. McKivern of the Baptist church officiating. The interment will be made in the family burial ground in Mount Auburn cemetery. The following brothers of the deceased will serve as pallbearers: J. R. Elmer E., David E., Jacob K., Harry C., and Daniel C. Foltz. Jacob arrived home this morning from Philadelphia.

JOSEPH KLISH
Joseph Klish, 44 years old, a driver in the mines of the H. C. Frick Coke company at Leisensburg No. 2, died this morning of Spanish influenza. Funeral Sunday afternoon at 2:30 o'clock from the house, with interment in St. John's Slavish cemetery.

A NERVOUS BREAKDOWN

Miss Kelly Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound, and she told me about it. From the first day I took it I began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter."—Miss FLO KELLY, 476 So. 14th St., Newark, N. J.

The reason this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition and as a result her nervousness disappeared.

JUST SIMPLE COMMON SENSE

Really Nothing to Be Alarmed About When Speaker Uses Pretentious Word "Psychology."

One way to get an audience nowadays is to call the subject of one's talk "Psychology." A Harvard professor recently amazed a convention of clothing manufacturers and dealers by delivering an address upon this topic, in which he laid down several principles about the effect of clothing upon the wearer, and the surprise of his hearers was due to the discovery that what the learned man had dignified by a long word was nothing more than what more commonly passes for common sense. A good many of the things he said were already known to them, if they had stopped to think. When he placed them under the head of psychology they sat up and took notice, says the Oregonian.

He said, for example, that the well-dressed man is 10 per cent more efficient than the poorly dressed man. He said that clothes that do not fit prevent the wearer from doing his best. Cleanliness promotes self-respect. Self-respect is contagious. Like confidence. The man who does not think well of himself is unlikely to win the good opinion of others. Comfortable clothing, made of good material, well brushed, was the foundation of the super-structure, he said. He was talking to hard-headed business men, and they believed him, because their own experience showed his statements to be true.

COMMISSION TO STUDY COAL CONDITIONS IN FOREIGN COUNTRIES

Will Collect Data Designed to Be of Use in Solving the Fuel Problems of America; To Begin Soon.

A commission has been appointed by the United States Fuel Administration to make an investigation of facts bearing upon the production, distribution, consumption and conservation of coal in foreign countries. The commission consists of Walter E. Hope, member of Maston & Nichols, attorneys of New York, and at present associated with the Fuel Administration as director of the bureau of state organization; S. Brinkerhoff, member of the firm of Thorne, Neal & Company, coal distributors, and president of the Temple Coal company, and James H. Allport, a consulting engineer of Philadelphia, Pa., and associated with the Fuel Administration in that capacity for some time.

It was conducted by the commission is practically unlimited, and for that reason no definite statement has been made as to the manner in which the work will be undertaken. The commission will collect all data that appears to it to be of value in enabling the United States Fuel Administration to solve the fuel problems of America.

If the present plans of the Fuel Administration are carried out the commission will visit practically every country which the United States is associated in the war, and will devote itself to a careful study of the problems of each and the methods used by each to meet its fuel requirements.

NO MORE CATARRH

Get Rid of That Soreness, Gas and Indigestion.

Catarrh cures gas, and catarrh cures gas, but Hyomel continues to eat, eat, eat, and abolish its disgusting symptoms wherever civilization exists. Every year the already enormous sales of this really scientific treatment for catarrh grow greater, and the present year should show all records broken.

If you breathe Hyomel daily as directed it will end your catarrh, or it won't cost you a cent.

If you have a hard rubber Hyomel inhaler somewhere around the house, get it out and start it at once to forever rid yourself of catarrh.

A. A. Clarke, or any other good druggist, will send you a bottle of Hyomel (liquid), start to breathe it and notice how quickly it clears out the air passages and makes the entire head feel fine.

Hyomel used regularly will end catarrh, coughs, colds, bronchitis, asthma. A complete outfit, including a hard rubber pocket inhaler and bottle of Hyomel, costs but little. No stomach dosing; just breathe it. It kills the germs, soothes and heals the inflamed membrane.—Adv.

HOSPITAL FOR "FLU" OPENED IN SCOTSDALE

Institution is Located in

ing with this agency. Write it. All
communications must be signed.)

Special to The Courier.

SCOTSDALE, Oct. 25.—An emer-
gency hospital has been opened in the
Y. M. C. A. building here for the
purpose of caring for persons who
are stricken with the Spanish influ-
enza and pneumonia and kindred dis-
eases. The hospital has been opened
through the efforts of the Red Cross
and the Scottsdale Board of Health.

About 20 beds have already been
installed in the "Y" and the state
board of health has been requested
to supply 40 more. These beds will
be arranged in the gymnasium of the
institution. The "Y" kitchen will be
used to prepare food for the nurses
and patients.

The Red Cross has supplied two
graduate nurses, 10 nurses' aides, and
an expert dietitian with aid. A
committee of civilian relief has been
organized by the Red Cross which
will see that all cases in the town are
given the necessary care.

Two serious cases were admitted
to the hospital last evening while the
executive committee was in session.

At the executive committee meet-
ing the community was divided into
districts and a relief committee as-
signed to each district. This relief
committee will keep in touch with
all the residents of their district and
cases which are not getting the prop-
er care and attention will be removed
to the emergency hospital.

Only cases which do not receive
the proper attention at the homes or
boarding houses where the patients
are located will be admitted to the
hospital. If the epidemic should
increase and the physicians be un-
able to handle all the cases, those
which the doctors are unable to look
after will also be admitted.

The doctors in this community be-
lieve they have the epidemic checked,
however, and request that the resi-
dents of the town not be alarmed
over the situation.

The relief committee and the dis-
tricts to which they were appointed
follow:

Brownstown to Newman street, R.
P. Perry, Rev. M. A. Lambing, H. E.
Newman, Frank McCudden and J. W.
Rutherford.

Newman street to Pittsburg street,
Rev. I. E. Runk, J. T. Bradley, Ed-
ward Miller and Edward Anderson.
Hickory street, west, Rev. W. H.
Miller, Charles H. Stoner and Dr.
Lawrence Keltner.

North Side, Scottsdale, C. Lee Mel-
linger, Harry Uber and Joe Reed.
Everson district, James Keegan,
Rev. T. S. Micker, William McGowan
and John R. Byrne.

The general relief committee is
composed of Rev. I. E. Runk, Robert
Perry and James J. Keegan.

A canvass for blankets made by the
women of the Red Cross netted 40
within two hours. At least 90 are
needed, and persons willing to donate
them are asked to call Mrs. Robert
Skemp.

HYNDMAN STRICKEN.

Thirteen Influenza-Pneumonia Deaths
in Fortnight.

Hyndman is sorely stricken, thir-
teen deaths from influenza and pneu-
monia having occurred within the
past two weeks. The undertaker is
ill and a Bedford undertaker is pre-
paring the bodies for burial. Medical
aid from Bedford is being depended
upon.

Among those who died are Alfred
James and Walter H. Topper, both
Baltimore & Ohio firemen.

Card of Thanks.

Mr. and Mrs. John Dwyer and family
wish to extend their heartfelt thanks
for the kind assistance rendered to
them during the sickness and after
death of their son and brother, Harry
Daniel Dwyer. They wish especially
to thank the Attendants at the Emer-
gency Hospital, Mr. Ward, the doctors
and the nurses who did everything
possible for him during his illness
there. Also do they wish to thank
their many friends who sent floral
tributes. adv. 25

Is the Duty of Every American Home to Save Coal

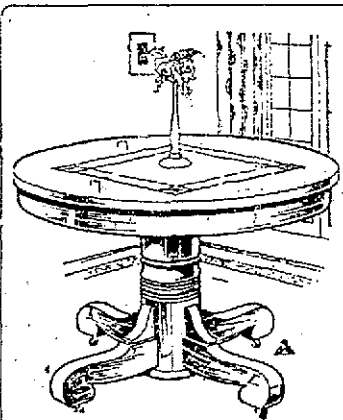

With the war industries of this country moving at high speed, we require more
fuel than ever before in our history. It is necessary that every American home do its
bit in saving coal that the necessary industries may go on at their greatest efficiency.
To this end, we are displaying here an unusually large number of stoves that will help
you conserve fuel.

Not a single one of these stoves is an experiment. Every one has been tried out
in actual practice and found to be both economical and efficient, burning practically
any fuel with equal efficiency. Because of the increasing difficulties in securing our
entire allotment of stoves, we would advise immediate selection.

The Hoosier Will Help You

Preparing meals is hard at best but straightening up a
disorderly kitchen afterward is enough to discourage any
woman. That's one reason why you need the Hoosier Kitchen
Cabinet—it has places for 400 articles, all within arm's
reach. It helps you do your kitchen work in half the time.
And keeps all things centralized as you use them.

Come in and let us fully explain
Hoosier to you

Let us show you why Hoosier excels all other Cabinets
in convenience—because it is scientifically built. The par-
tionless work space above the sliding table top is wide and
uncluttered. This is vital to convenience because 90 per
cent of your work falls here. And the over-size Hoosier base
gives you a lot more space for pots and pans than found in
any other Cabinet.

Come in now and see the new Hoosier models—and how
they will save you miles of steps and hours of time. No obli-
gations whatever.

Prices range upward
from as low as **\$29.50**

PUBLIC WELFARE THE FIRST CONSIDERATION.

The report of the committee which made the health survey of the city, showing 1,389 cases of influenza and pneumonia, will be a revelation to those who were disposed to believe that the epidemic had not assumed very considerable proportions. Sobering as are the facts established by the survey, knowledge of the conditions, as they were found to exist, should occasion no undue alarm. Quite the contrary frame of mind should be maintained. The fact that the disease in some of its forms or accompanying complications is so widespread in the city, should inspire upon everybody the grave necessity for exercising redoubled precautions to prevent the epidemic securing a firmer foothold, while also leaving nothing undone that will help to stamp it out as quickly as possible.

The experience of other communities has been that an apparent waning of the epidemic often precedes a more violent or more general outbreak. Thus we must guard against any relaxation of precautionary measures until it is known for a certainty that all danger is passed. Unless we as individuals exercise the greatest vigilance against the disease, we cannot expect that we shall escape merely as a matter of good fortune, or that it is unnecessary for us to further contribute to the efforts that are being made to stay the progress of the dread malady.

With the information we now have of the number of cases, and particularly of those requiring assistance, the problem confronting the people of the city can be approached with a better understanding of the needs. The outstanding fact established by the survey is that the magnificent work being done at the emergency hospital and by the self-sacrificing committee and the workers in charge, must be sustained and augmented in every possible way. More help must be provided, the present limited number of persons being inadequate. Those who have been giving lenient attention to the task must not be asked to continue their labors to the point of physical exhaustion, which some are already nearing. They must have relief and that relief can apparently come but in one way and that is by a larger number of persons volunteering to do whatever they can and all that they can.

The situation is indeed serious but it must be met calmly, courageously, and by actions that are controlled solely by a desire to make the public welfare the first consideration.

Secretary Daniels of the Navy has issued an urgent appeal to the electors of Michigan to support Henry Ford, Democratic candidate for United States Senator, on the ground that the "angle boats" which have proved good exterminators of the U-boats, are being built in the "Tin Lizzie" factories. Strong evidence that "Politics is adorning."

Meanwhile Poch fights on.

The Fayette County Chapter of the Red Cross with its new equipment of old officers is ready to go ahead with another year of splendid work in behalf of a great cause.

We must not get the notion that we are turning the war as an exclusively American enterprise. We are merely minority stockholders hence cannot have a say in the management of the business.

Why We Need a Republican Congress

Preparation for Peace Must Not be Delayed as Was Our Preparation for War.

By Richard Barry in The Outlook.

While the military and financial prosecution of the war is the first issue before the country, the next commanding problem is doubtless that of reconstruction. All other countries except the United States are preparing constructively for peace. The United States alone is as unprepared for peace as she was for war. The Democrats show no disposition to consider in advance the reconstruction problem. They are no more the preparedness party for peace than they were the preparedness party for war. While they have the excuse for their delay in equipping the country with a proper war program that the United States is not a militaristic nation, and that it was for a time "too proud to fight," it is difficult to imagine what their excuse will be for a lack of preparedness for peace.

Through Senator Weeks the Republicans have already introduced in the Senate a resolution calling for the appointment of a Committee on Reconstruction, which would adequately consider in advance the many problems that will be upon us at the drop of the peace hat, and which, if we are unprepared to meet them, may throw us into panics and confusions from which decades will not deliver us. It is true that Senator Overman, since Senator Weeks' proposal was made, has introduced a bill practically putting the control of all reconstruction policies into the hands of the President. But this plan cannot pass even a Democratic Congress without weeks of debate, if at all. A Democratic Congress will not meet these reconstruction problems at the only time that they properly can be met—in advance; a Republican Congress would meet them promptly.

Judging from a non-partisan standpoint, it appears that the only way to prevent the diversion to partisan uses of the powers granted to the chief executive solely as war measures is in the return of a Republican Congress. Experience has shown that protest is unavailing; that public revelations of advantages taken by departmental heads or war conductors to further their political fortunes is unavailing. There appears to be only one way to "keep politics out of the war"; that is to give Republicans a congressional control. That will not only keep politics, it will keep partisanship, out of the conduct of the war.

With a joint responsibility in the government will come a joint use of the nation's best brains. Thus only can the republic realize its highest efficiency. With both parties hitherto to the lead, one at one end of Pennsylvania avenue and at the other end, the thought of America and of the world for the next two years will be to discover which can poll the harder.

By voting for Republican candidates, both at district and at-large representatives in Congress, the voters of Fayette county and of every part of the 23rd Congressional District, can help impress upon the public mind the fact that in the conduct of the nation's business, there is a joint interest. They can and must demand the Democrats at present in control that ours is in fact a government of and by the whole people and that the war in which the whole nation is engaged is the people's war; that we are not governed by a section; that the war is not a private enterprise of the Democratic party.

No reminder of the existence of these facts will have recognition, force or effect unless it is expressed at the election in the choice of Republican candidates for Congress who can and will assume with idleness to the best interests of the whole nation their full share of the responsibility in the conduct of the government and the vigorous prosecution of the war to a quick and victorious ending.

The men whom the Republicans have nominated as the district and at-large representatives in Congress do not seek the perpetuation of a party in control or to continue the dominance by a section of legislative immunity for the whole nation. Neither will they permit comparative immunity to favored sections from the burdens of the war taxation, nor seek to impose unfair exactions or penalties upon industries or communities about which they have no intimate knowledge and about whose progress and welfare they care infinitely less.

With Republicans in control of Congress there will be the same prompt and earnest cooperation with the President on war legislation as there was willing support by loyal Republicans in the present Congress in securing the passage of the Selective Service Law, the declaration of war against Germany and other war measures which were opposed by the Democratic leaders in Congress. There will be no narrow obstruction, no partisan interference. There will be the leadership of broad-minded, strong men. There will be a real movement started to solve the big problems of industrial and business life in America after the war.

When the boys Over There go over the top after the Hun the hardest thing is keep those back who are detailed to remain behind. Over Here the hardest thing is to get a few unwilling patriots to go ahead when the orders is "Forward!"

Why have our Allies become mere "associates" at the time when it is considered opportune to use "the essential" word in addressing the common enemy?

The "Fin" has not yet flown.

With some hope of softening their punishment the Huns have agreed to return after the war, the works of art looted from the museums and private homes of France and Belgium. They cannot return the lives of murdered women, children and other non-combatants, but can, and must, be made to do penance for their sins.

Energetic Scottsdales, which term include all the citizens of the hustling Mill Town, put the Fourth Liberty Loan over the top with the usual completeness and dispatch.

This is no time to throw monkey-wrenches into Poch's military machinery.

TWO MT. PLEASANT BOYS WOUNDED IN ACTION IN FRANCE

Telegrams Telling of Injury of Vincent Keller and Fred Clarke Received.

HARRY KANE IS SENT BACK

Member of Company E Writes That He is in Red Cross Hospital at Newport News; Deaths Occur From Spanish Influenza and Pneumonia.

Special to The Courier. MOUNT PLEASANT, Oct. 25.—Two more casualties were reported here yesterday, two soldiers in Company E, 110th Infantry being reported as wounded in action.

Mrs. James Keller received word that her son, Private Vincent Keller, was slightly wounded on August 28.

Arnold Clark of Vine street was notified by the War Department that his son, Private Fred Clark, was wounded in action of September 2, degree undetermined.

Wounded Soldier at Newport News. Mrs. Lavina Kane, who had been previously notified that her son, Private Harry Kane, a member of Company E, 110th Regiment, was wounded in action July 27, yesterday received word that he is in a Red Cross hospital at Newport News. Writing to his mother, Private Kane says he is once more "back in God's country." He says he was wounded in the foot and that although he is able to put his foot on the ground he is unable to use it.

Arrest Celebrations.

Eleven foreign workmen were arrested yesterday by Gus Hoffman, constable of Mount Pleasant township, for leaving their work too long to celebrate a wedding. A foreign couple were married Tuesday at Standard Shaft and after one day's celebration they continued into the next. They were asked to return immediately to work as their absence was decreasing production but they paid no attention to the request. On the third day, as there was no letup in the celebration, Constable Hoffman arrested the men and they were sent back to their work.

Scottdale Man Dies.

Samuel M. Freed, 31 years old, of near Scottdale, died yesterday morning at the Memorial Hospital here following an illness of pneumonia. He was admitted Tuesday. For nine years he had been a machinist at the American Sheet and Tin Plate Company plant at Scottdale. He is survived by his widow and four children. His mother, Mrs. Anna L. Freed, of Mount Pleasant, also survives. Four sisters, Mrs. J. P. Leonard, of Vandergrift, Mrs. J. E. Speers, Gladys and Marie Freed survive, and also one brother, L. C. Freed of Philadelphia. The body was removed to the home of his mother on College avenue. Funeral services will be held Friday afternoon at 4 o'clock, with interment in the Middle Church cemetery.

Dies of Influenza.

Andrew Shinsky, 25 years old, died yesterday at home at Central from influenza. The death is the second to occur in the family this week, a brother, Paul, dying of the same disease during the early part of the week. Andrew was stricken while attending the funeral. Funeral services will be held tomorrow afternoon at 4 o'clock with interment in the Polish cemetery.

Elmer Sheppard Dies.

Elmer Sheppard, son of Walter Sheppard, a former councilman, now located at Youngwood, died at the Columbia Hospital in Wilkesburg Wednesday night. The body was taken to the home of his father-in-law, Ben Binner, of this place. Funeral services were held this afternoon, with interment in the Mount Pleasant cemetery.

Truck Farmer Drops Dead.

A truck farmer whose name is Orzechowski, living near Detweiler's Mills, dropped dead in the street in Everson yesterday while talking to a customer. He died of heart failure. No funeral arrangements have yet been made. He is survived by three sons, two in Chicago, Ill., and one pastor of the Immaculate Heart of Mary church at Cleveland, Ohio.

NO PEACE WITH THE KAISER OR ANY OF CLIQUE

This is Message Flashed to the
World by President Wilson
in His Latest Note.

SURRENDER OR FIGHT ON

Armistice Cannot be Granted Until
the Hohenzollern Militarists Ac-
knowledge They Are Beaten and
Ready to Give Up Unconditionally.

By Associated Press.

WASHINGTON, Oct. 23.—No armistice except under conditions of surrender.

No peace with the Kaiser and his war lords, now or later.

This President Wilson has given in advance his own final decision in informing the new spokesmen of Germany that he has acceded to their request that he take up with the Allies their plea for an armistice and peace negotiations.

The President's reply to the latest German note has gone on its way to Berlin. It was delivered to Frederick Oederlin the Swiss charge, Wednesday night at 9 o'clock and soon afterwards was on the cables in plain English, no time being lost to convert the President's uncompromising sentences into code.

The President's reply was flashed broadcast to the world from the great Arlington radio station after the official text had been put on the cables.

make an effort to get it.—Adv.

FRAZIER MOVES UP

Trotter Soldier is Made Ordnance Ser-
geant at Camp Middletown.

Mrs. Jennie Frazier of Trotter has
received word that her son, John Frazier,
has been promoted to ordnance
sergeant.

Frazier was formerly a West Penn
conductor, being in the service of the
company for a number of years. He
went into training at Carnegie Tech,
Pittsburgh, in June and from there was
transferred to Camp Raydon, N. J. He
is now stationed at Camp Middletown.

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To
Open Up Air Passages.

Ah! What relief! Your clogged
nostrils open right up, the air passages
of your head are clear and you can
breathe freely. No more hawking,
snuffing, mucous discharge, headache,
dizziness—no struggling for breath at
night, your cold or catarrh is gone.

Don't stay stuffed up! Get a small
bottle of Ely's Cream Balm from your
druggist now. Apply a little of this
fragrant, antiseptic cream in your nos-
trils, let it penetrate through every air
passage of the head; soothe and heal
the swollen, inflamed mucous mem-
brane, giving you instant relief. Ely's
Cream Balm is just what every cold
and catarrh sufferer has been seeking.
It's just splendid.

All in Some Day.

One day at a Southern club one of
the negro soldiers was showing me a
service pin with three stars which he
always carried in his pocket. I asked
him who the relatives were and he re-
plied: "One is for myself and the other
two is for my brothers; one is going
to enlist and the other is in the next
draft."—Exchange.

Reviewing a Kindness.

If you have done a kind thing, do not
spoil it by talking too much about it.
The people who are all the time draw-
ing attention to their kindness and gen-
erosity, and the sacrifices they have
made, are not the ones who can expect
the most sincere gratitude.

CELERY KING A LAXATIVE TEA

If You Suffer From Constipation, Un-
settled Stomach or Irritable Liver,
Give Celery King a Trial. If
You Want Pleasant Relief,
And Want It Quick.

It's a purely vegetable remedy, gentle
and effective that gives instant
relief from the bowels and makes you
feel better right away.
Beware of one of these pleasant remedies
when you catch cold, get feverish and
are out of sorts.
Use it for sickheadaches. To give
you a sweet breath, clear skin and
healthy appetite.

It's Acid-Stomach That Makes Millions Sick and Suffer

Life is dark—not worth much to the
man or woman with an acid-stomach.
Acid-stomach kills Hope, Ambition,
Energy, Courage. It saps the strength
of the strongest body, overpowers the
blood—causes untold suffering—makes
millions weak, unfit and brings on pre-
mature old age.

You know what acid-stomach does to
teeth and gums—how the acid literally
eats through the hard enamel, causing
the teeth to decay. Just imagine, then,
what havoc an acid-stomach must do to
the delicate organization of the stomach.

Millions of people are weak and unfit,
suffering all the time, in one way or an-
other, from acidity or acid-stomach.

They don't seem dangerously sick.
Just ailing. Going through life meekly,
listless, dragging one foot after another.

They're nervous and irritable, lack
power and patience. Frequently have
severe attacks of bleeding, spitting
and nausea, subject to fits of melancholia
and mental depression. And nearly al-
ways their stomachs are out of order.

Even though many experience no actual
stomach pains—digestion poor—never
getting anywhere near the full strength
from their food.

So, you see, it's just this acid-stomach
that holds so many people back, keeps
back—sapping up the strength they
should get from their food—taking away

their vigor and vitality—leaving them
weak and inefficient.

Get rid of the excess acid. That's
the secret of good health and is the only
way to obtain good digestion and stimu-
lation. It is the right way to be well and
strong. Ordinary tonics won't do
any lasting good. The best they can do
is to sour up your appetite. When the
stimulating effect wears off, you are
worse off than ever.

A modern remedy, makes it possible
to remove excess acid without the slight-
est discomfort. It is called EATONIC.
In the form of pleasant chewing tablets.
Their action in the stomach is a good
deal like a piece of blotting paper taking
up a drop of ink—they literally absorb
the injurious excess acid and carry it
away through the intestines.

Begin using EATONIC right now—
today—and get on the road to bounding,
vigorous, vibrant health. Thousands
upon thousands of people who have
used EATONIC are enthusiastic in its
praise. They say they never dreamed
that anything could bring them such
quick relief.

EATONIC is fully guaranteed. Your
druggist will give you a big box for only
50 cents with the latest understanding
that if you are not pleased in every way,
you get your 50 cents back. You need
your druggist—and you can safely trust
him to make this guarantee good.

FOLTZ ENTERS SERVICE

Dunbar Undertaker to Train for Com-
mission at Camp Taylor.

J. R. Foltz, the well known funeral
director of Dunbar, will leave soon to
enter the Central Officers' Training
Camp, Field Artillery, at Camp Zachary
Taylor, Louisville, Ky., where he
is scheduled to take up the training
work for an officer's commission. Mr.
Foltz has had previous army experi-
ence, having served three years in the
7th Company, Coast Artillery, and at
the time of his honorable discharge
was the first ranking duty sergeant
of his company. In addition to this
he served two and one half years in
the Fighting Tenth as drummer with
the regimental band.

Mr. Foltz has five brothers in the
service and two other brothers are ex-
pecting to enter in the near future.
None of the boys has been drafted, but
all have either enlisted or accepted
the opportunity to respond to induct-
ion calls. During the absence of Mr.
Foltz his wife, who has had about 10
years' experience in the business, will
take charge of his work. The license
held by Mr. Foltz this week was trans-
ferred to Mrs. Foltz.

Some of our American women are
born down physically and mentally,
by the weakness of their sex. They
suffer from backache, dragging sensa-
tion, bearing-down pains, very nervous
and pain in top of head. If they ask
their neighbors they will be told to take
a Favorite Prescription of Dr. Pierce's
which has been so well and favorably
known for the past half century.

Weak women should try it now. Don't
wait. Today is the day to begin. This
temperance tonic and purgative will bring
vigor and vitality. Send Dr. Pierce,
Buffalo, N. Y., 10c. for trial package.

COBB, MATHEWSON, RICKY AND HAUGHTON WILL NOT ENJOY SOFT BOMBPROOF PLACES

That Ty Cobb, Christy Mathewson, Branch Rickey, Percy Haughton and other men prominent in the sporting world have not been handed soft bombproof jobs in their appointments as officers in the chemical department of the war was made known by Maj. Gen. William L. Sibert, director of the United States chemical service, in answer to a pointed question regarding the duties of such officers.

"Our troops, that is the gas troops, are not chemists; nor are the officers that go with those divisions," said the general. "Those officers teach the men how to use the gas masks and stay with them through the engagements."

"It was for work of this kind that those men were taken. They were not taken because they are baseball players; we simply wanted to get strong, robust fellows that have good average common sense, and these men wanted to come in, and we took them. They will go over in the gas troops as gas officers."

In the offensive end of the gas service the gas troops carry out cloud attacks, operating the projectors or light mortars that throw shells filled with gas. So it looks as if the famous baseball men will be right at the front, administering gas to the enemy.

CUBANS WANT ROWING RACES

Anxious to Compete in America and Canada When Sport is Resumed After End of War.

Joe Wright of Toronto, the famous stroke oar and former captain of the Argonaut R. C., has returned to the Canadian city after coaching the members of a Havana club for the races for the championship of Cuba. The crews instructed by Wright won the four-oared race, and a single sculler also won, while his eight-oared crew finished second. The Cubans are anxious to compete in America and Canada when rowing is resumed after the Huns are beaten.

JACKSON IS AN INSTRUCTOR

Will Have Charge at Pelham Bay, Where Jackies Are Quartered—To Succeed Leonard.

Willie Jackson is the latest one of the topnotch battlers to be appointed a civilian boxing instructor for Uncle Sam's men. Willie received word from Washington to the effect that he had been appointed boxing instructor at Pelham Bay park, where the jackies are quartered. Jackson takes the place of Mike Leonard, the old-time fighter, who filled the position there for some time.

ASKEM COMES FROM DUQUESNE TO TELL STARTLING STORY

Well Known Insurance Agent Relates How Ten-Herbs Has Restored His Health

It is always interesting to listen to the statement of a friend, especially when you know that he is sincere and honest in what he says. Added interest is created in a statement coming from a man of standing and un-

questioned integrity. Such a man is Mr. Thomas Askem of No. 1718 Railroad street, Duquesne, a well-known insurance agent, who has a wide acquaintance in local business circles in Pittsburgh. He said:

"I have been under treatment for the past year for stomach trouble, and my stomach was in such a weak condition that I could hardly keep down the lightest kind of food. I was troubled with gas, had headaches, terrible indigestion and pains in my back; I was very nervous and scarcely ever able to sleep at night, and in the morning would be all tired out and unfit for my work. I had no ambition or energy whatever. Nothing I had taken did me any good until I started to take your Ten-Herbs, and now I am feeling fine; I sleep well and am able to eat my meals. I am greatly improved in every way since taking Ten-Herbs."

Ten-Herbs cleanses, strengthens and revitalizes the entire system. It clears the blood of poisons and impurities, puts the liver to work, regularizes the bowels, strengthens the kidneys and tones up the digestive organs. It sharpens the appetite and promotes sound, restful sleep.

Ten-Herbs is sold in Conneltsville at the Conneltsville Drug Co's. Store.

Jimmy Shaw, George Kale and Pitcher Turo Secure Employment at Lebanon Plant

Pitcher Jimmy Shaw of Washington and Pitcher George Kale of the Browns have reported at Lebanon, Pa., for work in the Lebanon plant of the Bethlehem Steel company. Turo, the Cuban pitcher of the Cardinals, is also reported as having secured employment in the same plant.

TELLS EXPERIENCES OF WAR

Only Difference Between "Zip" of German and Johnson's Fast One Is Hop on Latter.

War can have few terrors for American league battlers now serving with the colors, according to a letter received at Cleveland from Eddie Klepper, former Cleveland pitcher, now a sergeant with the American expeditionary force. Klepper said there is little difference in the "zip" of a German sniper's bullet and the "whizz" of Walter Johnson's fast one, except that Johnson's offering may have a "hop" on it.

The letter says:

"I have been over the top and I came back without being hit. I was a member of a scouting squad. You know how it feels when you are up to bat and Walter Johnson buzzes one of his fast ones past your ears. That"

how it feels when the Huns are trying to pick you off. It sure is a great sensation—just of being fired at by some one you know means it."

Fathers and Mothers With Sons in Uniform Leaders In United War Work Campaign to Raise \$170,500,000

Men and Women of Seven Big Organizations Which Are Taking "Home" to the Boys "Over There," Join in Countrywide Drive to Show Necessity of Providing Funds So That Our Fighting Men May Be Kept Comfortable and Contented.

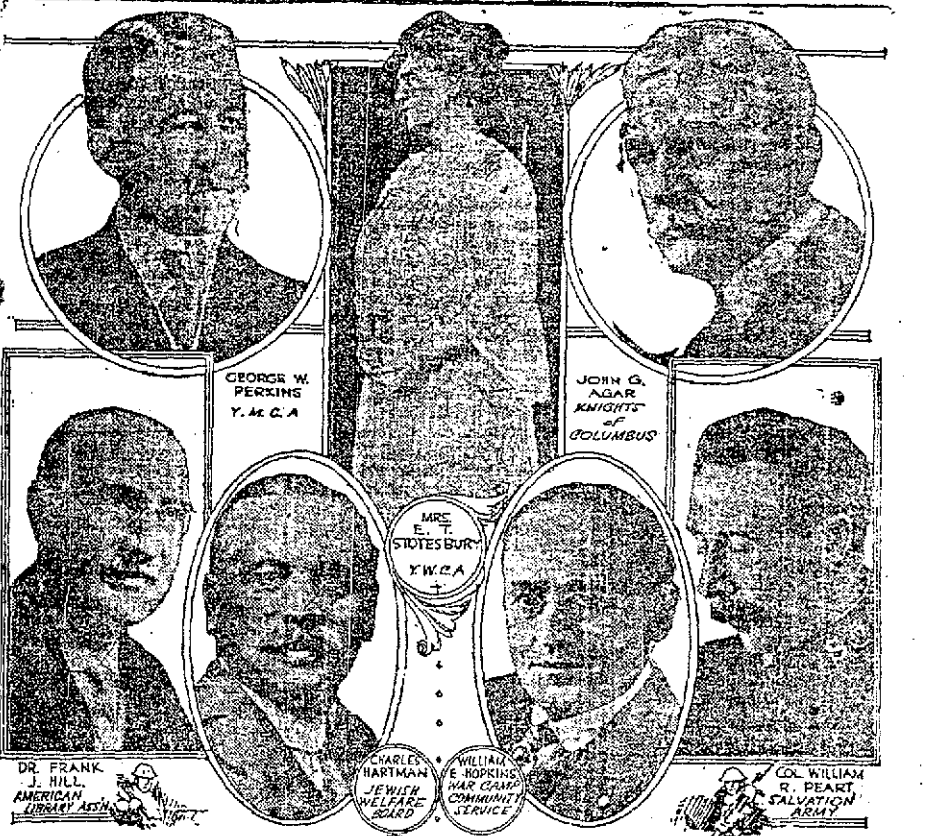

If your boy is in the service—if he is steadfastly facing the Hun with eyes and heart unafraid, what better can you do than join one of the great organizations whose mission it is to care for him and lighten the heavy load of war that rests on his young shoulders?

You cannot fight, but you can stand behind a fighter and give him the support that makes for the American "pop" recently made famous by King George of England, when he said that the "doughboys" had put "pop" into the whole Allied armies. These are the reflections that have led so many fathers of soldiers and sailors to enter into the great work being done by the Y. M. C. A., Y. W. C. A., Knights of Columbus, Jewish Welfare Board, War Camp Community Service, American Library Association and the Salvation Army.

Have Fighting Sons

Yes, the Y. W. C. A. is included in the above list—many of its most prominent workers and officials have sons in the service and are standing behind them in every possible way. Just a few of those who have sons in the service are Mrs. Henry P. Davidson, treasurer and chairman of the National Campaign Committee; Mrs. Edward M. Townsend, chairman of the Hostess Committee; Mrs. Lewis H. Lapham, chairman of the Publicity Committee; Mrs. John E. Mott, chairman of the Committee on Work in Other Countries; Mrs. Robert S. Spear, president of the National Board; Mrs. Edward T. Stotesbury, Mrs. Edwin R. L. Gould, Mrs. William A. Read, Mrs. Percy V. Penny, Mrs. Van S. Merle-Smith, Mrs. Leonard Wood, Mrs. Jonathan Buckley, Mrs. Robert Bacon and Mrs. Coleman Du Pont.

In the National Catholic War Council, John Q. Agar, treasurer of the organization, embraces the Knights of Columbus and other special welfare activities of the Catholic Church. He has three sons in active service. All of them are aviators. Lieut. John Q. Agar, Jr., is now flying in battle over the American Army before Metz; Lieut. William A. Agar, who had been flying in

Italy, is at present assigned to special duty in connection with aviation at Dayton, O. The Croix de Guerre has just been awarded to him. The third son, Herbert S. Agar, is in the aviation section of the Navy. Here at home, their father is devoting every hour to pushing the United War Work Campaign in his post on its Committee of Eleven, and with the active campaign organization that the National Catholic War Council is putting behind the great drive "for the boys over there."

The majority of the fathers in Y. M. C. A. work have sons in uniform. Among these are Cleveland H. Dodge, treasurer of the National War Work Council; John R. Mott, general secretary of the same, and George W. Perkins, actively identified with the Y. M. C. A. in several capacities.

The record of the Salvation Army is extraordinary, both here and abroad. There are more than 30,000 Salvationists in the Allied Armies. It is impossible to say how many fathers in the Salvation Army have sons on the battle front. Col. William R. Peart, Chief Secretary, has a son, Lieut. Herbert L. Peart, in the Eighteenth Infantry. Lieut. Peart recently received the Carnegie medal and \$500 for heroism. He went overboard in a rough sea and saved several lives.

Three Sons in Service

Of the War Camp Community Service, which takes care of all the soldiers and sailors in this country and most of those returning from abroad, a noteworthy example is that of William E. Hopkins, a direct descendant of the W. C. C. S., who has three sons in the service. Many of the other fathers connected with the War Camp Community Service, among whom are Dr. C. F. Sumner, are proud to have sons in the Army or Navy.

In addition to the sons of many

other officials, three of the directors of the Jewish Welfare Board have sons in the service. Louis Marshall's son, Sergeant James Marshall, has been in France for more than a year. Richard Charles Foreman, Company Commander of the Third Regiment at the Pelham Bay Naval Training Station is a son of Charles Hartman; David William Unterberg, son of Israel Unterberg, another director, is finishing his training at Pelham.

Although last here, the American Library Association is far from being lost in the number of fathers who have sons in uniform. Dr. Frank T. Hill, chairman of the Second Library War Fund, speaks for all the others. He was asked to tell in 100 words how it felt to have a son in the Army. "I don't need 100 words," he said, with emphasis. "Three will be enough. It feels bully."

"DRY" ZONES 5 MILES IN EXTENT AROUND MINES ARE PLANNED

In an Approved Bill Soon to be Called for Action in the Senate.

FOR DURATION OF WAR

Is Mandatory in its Provisions, Differing from Previous Resolution by Which President Was Empowered to Act When Deemed to be Advisable.

WASHINGTON, Oct. 25.—Senator Myers of Montana expects to call up at the earliest opportunity his bill to establish prohibition zones around coal mines, which has already been favorably reported upon by the Senate Judiciary Committee.

This bill contains provisions similar to the Kellogg resolution approved by President Wilson on September 12. This resolution empowered the President to establish zones of such size as he may deem advisable about coal mines, munition factories, shipbuilding plants, and such other plants for war material as may seem to him to require such action, whenever in his opinion the creation of such zones is necessary to or advisable in the proper prosecution of the war. Within which zones the President was also authorized and empowered to prohibit the sale of intoxicating liquors. A penalty of imprisonment for not more than one year, or a fine of not more than \$1,000, or by both such fine and imprisonment, was provided for violation of any regulation established by the President under the resolution.

The Myers bill differs from the Kellogg resolution in that it makes the establishment of the "dry" zones mandatory, and prescribes five miles as the depth of the zones. These, under the Kellogg resolution, were to be of such size as the President may deem advisable.

The title of the Myers bill is, "To insure a supply of coal for munition works and for other purposes. It provides:

"That in order to insure a supply of coal for munition plants, transports, and other agencies essential to the efficient prosecution of the war, the sale of alcoholic liquors for beverage purposes within five miles of any coal mine is hereby prohibited for sixty days from the passing of this act.

"Any person guilty of a violation of the provisions of this act shall be punished by a fine of not more than \$1,000 and imprisonment for not more than one year."

HEALTH AGAIN HAD SUFFERED FOR TEN YEARS

Winter Relieved of Serious Stomach Trouble, Due to Typhoid Fever

That Tanlac is an unusual body invigorant and restorer of the ravages of diseases is indicated by the experience of A. A. Kintner, a switchman on the New York Central Railroad, who resides at 517 Cascade St., Erie, Pa.

Mr. Kintner has had a remarkable restoration to complete health, after ten years of illness. He says:

"I had typhoid fever ten years ago, which left my stomach in very bad condition. I had terrible severe spells periodically, when I could not keep anything I ate on my stomach.

"When I was having these spells, I would be awakened from my sleep by terrible choking spells and it seemed like my chest would burst and my heart would stop. I would be afraid I was going to die before daylight.

"Finally, I saw Tanlac advertised. I bought a bottle. After the first few doses, its effect on me was almost marvelous.

"My stomach trouble began to disappear, my appetite improved, and I was able to eat a big meal and digest it.

"After I had taken three bottles, my health was remarkably improved. Now I can eat whatever I please, I sleep sound as a dollar all night long, and all the bad effects of the typhoid fever are gone."

Tanlac is now sold in Conneltsville exclusively by: The Conneltsville Drug Co., Belgrove's Pharmacy, and F. H. Hammann, where the premier preparation can be had.—Adv.

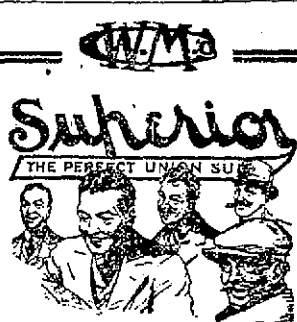

ANOTHER TIGER ENTERS ARMY

John Couch Appointed Second Lieutenant After Graduating From Camp Fremont.

Another former Tiger, John D. Couch, gets a star on a service flag with Detroit, as the last club on which he played, best entitled to it. He has just been made a second lieutenant in the army, after graduating from the Camp Fremont (Cal.) training camp. Couch, a former Stanford University and San Francisco pitcher, was bought by Detroit for the 1917 season and raised with the team at Waukegan, Ill. He was taken ill that spring, later suffered from blood poisoning, and has done little or no pitching since.

Another ex-Detroit, Ducky Holmes, is going overseas, having been made a member of the I. forces, and being now on his way to France. Holmes' last year was 1902, when he, Barrett and Harley did the gardening—first of the great outfields Detroit always has been possessed of.

HOW MINE WORKERS MAY AVOID TAKING SPANISH INFLUENZA

Red Cross Gives Instructions Which, If Followed, Will Tend to Prevent Spread of the Disease.

The Red Cross in conjunction with the Shipping Board and other government activities are directing their energies to preventing the further spread of Spanish influenza. To help in this direction Dr. Tulliaferro Clark, of the sanitary service bureau of the Red Cross, has formulated some health directions designed especially for mine workers, which follow:

1. Keep in good physical trim, taking exercise in the open air, walking to work when possible, and take plenty of sleep in airy rooms in which the sunshine has entered during the day.
2. Eat wholesome foods in adequate amounts.
3. Remove wet and damp clothing as soon as possible, and avoid sudden gusts of cold air without adequate clothing.
4. Avoid crowds, and cover mouth with handkerchief when sneezing or coughing, especially while in the mines.

5. Wash hands before eating, and keep them away from the face as much as possible.
6. Boil dishes after eating, and cleanse luncheon buckets and pails with scalding water once each day.
7. Use boiling water in washing handkerchiefs and undergarments.
8. If called to see a person suffering with influenza or pneumonia, cover mouth and nose with a gauze mask or clean handkerchief.

Miners should not congregate together in the mines, says Dr. Clark, and should remain away from men who are sneezing or suffering with colds. Dry clothing should be worn in the mines as far as possible. Bodily exhaustion and low physical resistance, whether from work or colds and coughs, present the best medium for the spread of the contagion, says Dr. Clark. Fresh air, clean clothing, the avoidance of crowds, and well ventilated sleeping rooms are chief aids in combating it.

It has not been found feasible, he said, to use disinfectants and purifiers in the air and ventilating systems of coal mines, nor can masks be used to advantage. The means of prevention must be employed in regular and hygienic habits of living. Liquors and intoxicants of all kinds should be avoided because of reduced physical resistance caused by them, and the tendency to invite exposure to the disease.

CHANGES MIND ABOUT GOING AWAY

"Five years ago doctors told me I would have to move my wife to another climate, as she suffered with stomach and liver trouble and bloating. Also, that she would have to have an operation for gall stones. Our mail carrier told me of May's Wonderful Remedy and, on his advice, she has taken it and is now as well as ever in her life." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince of money refunded. A. A. Clarke and leading druggists everywhere.

Here is why your shades show cracks and pinholes

It is a hidden weakness—this cause of cracks and pinholes—a certain great fault of the ordinary type of shade material. What it is—and how you can avoid it—is clearly revealed above.

Note, first, photograph No. 1—a sample of the ordinary shade material in unfinished state. Its surface has been lightly scraped with a knife. Here is exposed the great hidden weakness of the ordinary shade.

See what has happened! The scratching has loosened a quantity of chalk and clay filling, revealing the coarse muslin cloth beneath. Under the strains of daily usage, this "filling" falls out, leaving a "mess" of cracks and pinholes.

Now, note photograph No. 2—a sample of BRENLIN UNFILLED shade material in the same unfinished state. Observe that it consists purely of a fine, closely woven cloth—that it contains not a particle of chalk, clay or any other filling.

What is the result? In the Unfilled Grade of Brenlin has been perfected a material that really resists the constant strains of hard daily usage—that the hottest sun cannot fade, nor the inebriated water spot. It is supple—not stiff, yet cannot bag, sag, or wrinkle; wears twice as long as the ordinary kind, because from it has been eliminated that filling which is the greatest weakness of the ordinary shade.
